## About this document

### Indicative wholesale charges non-households

#### 1 April 2025 to 31 March 2026

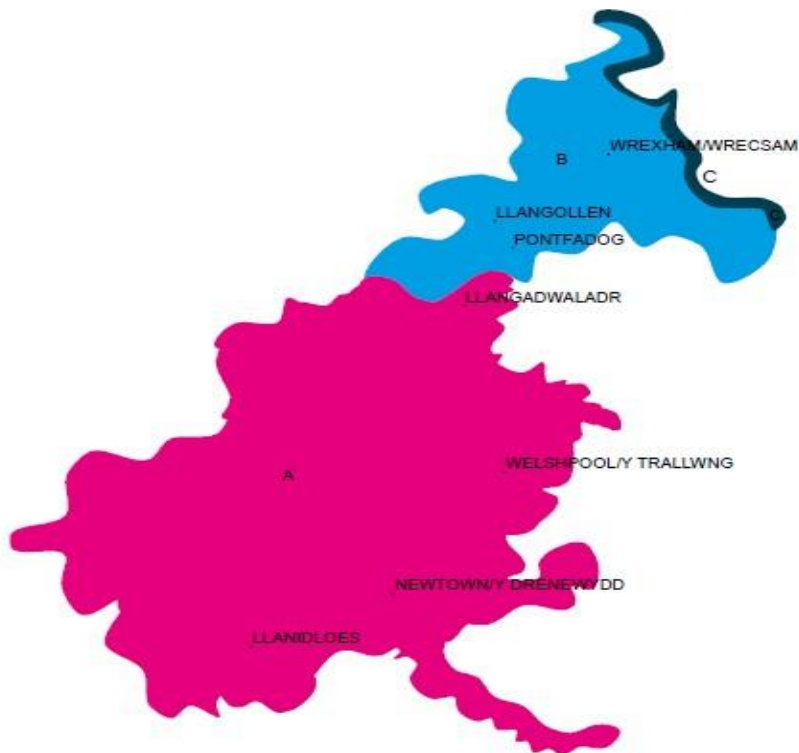

Ofwat published IN16-02 in March 2016. This set out new requirements for companies to publish indicative wholesale access charges. The charges contained in this document therefore represent the charges we expect to set for 2025-26 subject to any unforeseen significant changes in assumptions.

Wholesale charges are limited by inflation-linked revenue controls set by Ofwat. Final charges will depend on the rate of inflation as per the CPIH figure for November 2024, which will be published in December. Our final wholesale charges are currently planned to be published by 13 January 2025.

### Charging zones for unmetered charges

We vary our charges according to the zone the property is in. There are four geographical zones in the area covered by **Hafren Dyfrdwy**. The **map** below provides a guide to the area covered by each zone. Please note, **Zone D** is not shown on the map below as it is a very small area in Monmouthshire.

## Section B: Wholesale charges for 2025-26

### B1 Introduction

This section of the document sets out **our** indicative wholesale charges for 2025-26.

*Please note that in Zones B and C, used and surface water services are mainly provided by United Utilities or Welsh Water. Where we provide the relevant service, the following charges apply.*

### B2 Measured Water charges

*Please note that in Chester (Zone C) and Wrexham (Zone B), used and surface water services are mainly provided by United Utilities or Welsh Water. Where we provide the relevant service the following charges apply.*
